FEATURES AND ADVANTAGES

- **Durable construction** – Heavy duty construction for longer service life in demanding applications, such as terminal use.
- **Specialty rubber compounds** – Designed to handle Petroleum based fuels, oil, and grease.
- **Grounding Wire** – Durable multi-strand copper wire dissipates static electricity. Physically extract wire from the rigid helix and bond to the metal coupling (or by other means) to ground.†
- **Easy Slide Helix** – Rigid clockwise helix design protects hose tube from cover wear; allows hose to slide easily over rough surfaces.
